

# keeping the world connected

Communication is our lifeblood. It's what makes the world run and gives our lives meaning. Though technology evolves, the desire to seamlessly and securely access and exchange information anywhere, anytime never changes. While technological advances make communications simpler and more ubiquitous, efficiently interconnecting disparate applications, networks and devices and delivering it to the right person, at the right time, in the right way is enormously complex.

Creating a globally connected world is what iconectiv does better than anyone. Our cloud-based information as a service network and operations management and numbering solutions span trusted communications, digital identity management and fraud prevention. These are essentials that greatly aid industries such as communications, finance, healthcare, public sector and tech.

At iconectiv, **our vision** is a world without boundaries, where the ability to access and exchange information is simple, seamless and secure.

And **our mission** is enabling the world of tomorrow through the simple, seamless and secure interconnection of networks, devices and applications.

## business principles

With unparalleled leadership and legacy in global communications, iconectiv strives to make connectivity:

**simple** – making the systems and processes that are extraordinarily complex, comprehensible

**seamless** - simplifying information exchange, on a global scale, and making it instantly available

**secure** – entrusted with the critical data that makes the world run

# restoring trust in communications

## platforms

### TruNumber Finder

Real-time access to phone number data including historical porting history and current service provider ownership.

### TruNumber Gateway

Number portability management system that seamlessly manages phone number changes to maximize call completion rates with less costs and fewer errors.

### TruNumber Portability Clearinghouse

Secure platform and definitive source for phone number porting data.

### TruNumber Protect

Authoritative, database of high-risk numbers, including unallocated and premium rate numbers, to proactively identify and block call initiation of suspicious calls.

### TruNumber Resolver

Eliminate number portability routing challenges and simplify numbering plan changes with this information service.

### TruNumber Routing

Optimal routing and rating data for 245 countries and ISOs to validate the terminating service provider and prevent revenue leakage.

### TruOps Common Language

Simplified network, equipment and location asset and inventory management for accurate and timely financial reporting, improved network utilization, seamless interconnections.

### TruOps Telecom Routing Administration

One-stop, authoritative data source for North American interconnection data. Used for billing and numbering assignments and to route and rate 15B transactions daily.

### TruReach Intel

Interactive, web-based solution that simplifies voice and text authentication to enable legitimate business callers to provide a better, more trustworthy customer experience from a single registration point.

### TruReach Certify

Authenticate caller ID information at call origination and securely convey it between service provider networks to mitigate spoofing and illegal robocalling.

### TruReach Toll-Free 8MS

Efficient provisioning, least-cost routing, inventory management of 75+% of toll-free numbers and 70% of toll-free services.

## industry programs

### Local Number Portability Administrator

The nation's Number Portability Administration Center (NPAC), which facilitates number porting in the United States.

### Short Code Registry Administrator

Offer businesses unequalled opportunities to engage audiences through branded text messaging. Country's single database of available, reserved and registered short codes for trusted B2C text messages.

### Secure Telephone Identity Policy Administrator (STI-PA)

As the policy administrator, iconectiv will apply and enforce the rules to mitigate illegal robocalls and help consumers, once again, trust the calling number displayed on their caller ID.

### Telecommunications Relay Service for iTRS Users

Helps those requiring auditory or speech communication assistance to communicate with friends, family, businesses and government agencies.

make the connection.
