corporate fact sheet

solutions

fraud & identity

iconectiv offers a comprehensive suite of products and services that help companies protect their customers and assets from fraud and unauthorized activities that result from the misuse and abuse of communications networks and technology. Solutions include: MobileID.

numbering

iconectiv is the world leader in numbering solutions, ensuring over one billion people in 18+ countries can seamlessly transfer their telephone numbers from one service provider to another. Solutions include: Number Portability Clearinghouse, Number Portability Gateway, Service Management Gateway and North American Portability Administrator.

messaging

iconectiv provides companies with the robust and highly scalable delivery of Short Message Service (SMS) communications via a secure messaging network, simplifying message exchange. iconectiv also helps enterprises effectively engage with U.S. customers while staying in compliance with the Telephone Consumer Protection Act (TCPA) regulation. Solutions include: Engage Deliver and Right Party Verification for Messaging.

network & operations management

iconectiv helps service providers and equipment manufacturers, create efficiencies and optimize network performance by simplifying network management of physical and network functions and routing. Solutions include: Common Language Information Services and Telecom Routing Administration (TRA).

industry registries

iconectiv is the trusted third-party manager of large-scale industry registries, serving as the Common Short Codes Administrator for CTIA and the IoT AppID Registry Administrator for oneM2M. Short Codes are a trusted, reliable, A2P (Application to Person) messaging solution for brands to connect with their customers. IoT AppID ensures interoperability between hardware and software solutions across vertical markets in the IoT and M2M domains.
